1. BACKGROUND

The majority of Events that are sanctioned by Australian Auto-Sport Alliance require that Competitors, Codrivers and Navigators require a Motorsport Licence issued by AASA. In certain circumstances, an equivalent Licence issued by another approved sanctioning body will be accepted. This document outlines both the requirements to satisfy eligibility for Competitors, and which Event activities are approved for each Licence type.

All Licence applications must be completed and submitted via the AASA website. Applications for under 18-year-old Licence holders must be accompanied by the written consent of the minor's parent or guardian for the minor to hold the Licence. This form is dispatched upon completion of the Junior Licence application and must be returned via email to the AASA Office so that a Junior Licence application can be completed prior to the issuance of said Licence. Each Licence requires the applicant to submit a passport photo at time of application.

Applicants (or the parent/guardian for minor's) for all AASA Licences need to supply at minimum a declaration as to their health history and status as per the electronic application. It is important to note that, in the Event of an incident which results in personal injury, any undisclosed yet previously known medical condition or physical injury could impact the result of a claim.

All Licences, excluding Day and Event Licences, are valid for 12 months from the date of application. No Licence card is issued all Licences are sent electronically upon application or details accessed through the applicants Portal Login.

Please Note: All Applicants must have a valid Ambulance Subscription (if applicable in their State) to hold a AASA Competition Licence.

2. AASA NATIONAL RACE LICENCE

This Licence type is available to applicants over the age of 14 years. Only Competitors who have successfully completed three competition speed Events in the prior 12 months, and/or who have passed a AASA approved observed Licence Test, or can demonstrate that they hold an approved equivalent Licence will be issued with a AASA National Race Licence. A full medical assessment completed in the previous 12 months is also required for new applicants. Upon renewal of a AASA National Race Licence, a full medical assessment is required every two years.

New applicants who have no demonstrated race history will be required to hold "Rookie" status for the first 12 months and complete at least 4 races. A "P" plate must be displayed at the rear of the vehicle while the Competitor is still a Rookie. The Clerk of Course should complete the Rookie log at the conclusion of each of the previously mentioned 4 Race Events.
